himasreekarunakaran2812@gmail.com | +91 86889 59084 | [linkedin.com/in/himasree28](https://www.linkedin.com/in/himasree28) | github.com/HIMASREEK

Professional Summary

Computer Science Engineering graduate skilled in Python, Django, FastAPI, and full-stack web development. Experienced in building web applications and AI-based solutions using REST APIs, MySQL, Docker, and OpenCV. Developed projects including an e-commerce platform and an AI-powered skin tone recommendation system. Solved 500+ DSA problems on LeetCode and GeeksforGeeks, demonstrating strong problem-solving and backend development skills. Passionate about software development and building efficient real-world applications.

Technical Skills

Programming Languages: Python, JavaScript

Frameworks: Django, Flask, FastAPI

Frontend: HTML, CSS, Bootstrap, React.js

Databases: MySQL, SQLite, MongoDB

Tools: Git, GitHub, Docker, GitHub Actions, VS Code, PyCharm

Core Subjects: Data Structures & Algorithms(DSA), Object-Oriented Programming(OOP), DBMS

Projects

AI-Based Skin Tone Color Recommender

Tech Stack: Python, FastAPI, OpenCV, NumPy, Pandas, HTML, CSS, Jinja2, Docker

- Developed an AI-based system for real-time face detection and skin tone analysis using OpenCV DNN
- Built a personalized color recommendation engine using data-driven mapping techniques
- Developed a FastAPI web application for image upload, processing, and dynamic result generation
- Containerized the application using Docker for scalable deployment

Github : <https://github.com/HIMASREEK/skin-tone-color-recommender>

E-commerce Web Application

Tech Stack: Python, Django, REST APIs, HTML, CSS, JavaScript, SQLite, Bootstrap

- Developed a full-stack e-commerce platform with authentication, product catalog, cart, and order management features
- Designed RESTful APIs and used Django ORM for efficient database operations and structured data handling
- Built a responsive user interface and implemented secure session handling for reliable transactions
- Optimized backend performance for faster data access and improved application efficiency

Github : <https://github.com/HIMASREEK/Eccomere-website-Tryvion>

Coding Profiles / Achievements

- Solved 500+ DSA problems across GeeksforGeeks and LeetCode, demonstrating strong problem-solving skills
- Secured **Second Prize** in Solved PPT Presentation at the Abdul Hakeem National-Level Symposium.

Experience

Python Development Intern - ShadowFox

Aug 2025

- Developed Python scripts for data processing and task automation, improving efficiency and reducing manual effort
- Utilized libraries such as pandas and requests for data handling and API-based operations
- Debugged and optimized code to enhance performance and reliability
- Used Git for version control to manage code changes and support collaborative development

Live Project Intern - Vivnovation Private Limited

Jan 2025 – Mar 2025

- Assisted in coordinating project tasks and ensuring smooth workflow execution
- Supported project activities by tracking progress and maintaining task timelines
- Collaborated with team members to complete assigned responsibilities in a structured environment

Education

B.E. Computer Science and Engineering | Kingston Engineering College, Vellore, Tamil Nadu

2022 – 2026

CGPA: 8.56/10

Higher Secondary (MPC) | CSI Bain School, Chennai, Tamil Nadu

2021 – 2022

Score: 83%

SSLC | CSI Bain School, Chennai, Tamil Nadu

2019 – 2020

Score: 75%

Certifications

- Python Programming – **Rever Tech (Hands-on Training)**
- Python for Beginners – **Udemy**
- FullStack Development - **GeeksForGeeks**
- Artificial Intelligence Fundamentals – **IBM SkillBuild**
- Django Skillup – **GeeksForGeeks**
