PROFESSIONAL SUMMARY

Computer Science Engineering graduate with hands-on experience building full-stack web applications and backend systems using Python, Django, FastAPI, and REST APIs. Delivered end-to-end projects spanning backend development, database design, and Docker-based deployment. Solved 600+ DSA problems on LeetCode and GeeksforGeeks. Seeking a Software/Backend Developer role to apply strong problem-solving and full-stack engineering skills to production-scale products.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript

Frameworks: Django, Flask, FastAPI, Django REST Framework

Frontend: HTML, CSS, Bootstrap, React.js

Databases: MySQL, SQLite, MongoDB, PostgreSQL

Tools & Platforms: Git, GitHub, Docker, GitHub Actions, VS Code, PyCharm

Core Subjects: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS

PROJECTS

AI-Based Skin Tone Color Recommender | [GitHub](#) | [Live Demo](#)

Tech Stack: Python, FastAPI, OpenCV, NumPy, Pandas, HTML, CSS, Jinja2, Docker

- Built a real-time face-detection and skin-tone-analysis pipeline using OpenCV DNN models
- Designed a personalized color-recommendation engine using data-driven skin-tone-to-palette mapping
- Developed a FastAPI backend to handle image upload, processing, and dynamic result rendering
- Containerized the application with Docker for consistent, portable deployment

E-commerce Web Application | [GitHub](#) | [Live Demo](#)

Tech Stack: Python, Django, REST APIs, HTML, CSS, JavaScript, SQLite, Bootstrap

- Built a full-stack e-commerce platform with authentication, product catalog, cart, and order management
- Designed RESTful APIs and used Django ORM to structure and query relational data efficiently
- Implemented secure session handling and a responsive UI for a reliable checkout experience
- Optimized backend queries and data access patterns to improve page load and response times

CODING PROFILES / ACHIEVEMENTS

- Solved 600+ DSA problems across GeeksforGeeks and LeetCode, demonstrating strong problem-solving skills
- Secured Second Prize in Paper/PPT Presentation at the Abdul Hakeem National-Level Symposium

EXPERIENCE

Python Development Intern — Sify Digital Services Limited

Jan 2026 – Apr 2026

- Developed backend modules and RESTful APIs using Python and Django to support core application features
- Designed and implemented database models using Django ORM, and wrote views and serializers to handle business logic
- Built and consumed REST APIs to integrate backend services, and debugged issues to improve performance and reliability
- Used Git for version control and collaborated with the team following Agile development practices

Live Project Intern — Vivnovation Private Limited

Jan 2025 – Mar 2025

- Managed and organized patient documentation and records, ensuring accuracy and confidentiality in line with healthcare data-handling standards
- Coordinated client and patient meetings and calls to gather requirements and ensure timely processing of documentation
- Reviewed and completed healthcare-related forms, maintaining accuracy and compliance with organizational process guidelines

EDUCATION

B.E. Computer Science and Engineering | Kingston Engineering College, Vellore, Tamil Nadu

2022 – 2026

CGPA: 8.61/10

Higher Secondary (MPC) | CSI Bain School, Chennai, Tamil Nadu

2021 – 2022

Score: 83%

SSLC | CSI Bain School, Chennai, Tamil Nadu

2019 – 2020

Score: 75%

CERTIFICATIONS

- Python for Beginners – Udemy
- FullStack Development – GeeksforGeeks
- Artificial Intelligence Fundamentals – IBM SkillBuild
- Django Skillup – GeeksforGeeks
- SQL - GeeksForGeeks
